Shared Reading is the “with” teachers do along with students as they problem solve, think and talk their way through a piece of text they are “reading” jointly.

Teachers will learn how to:

- Design effective shared reading experiences in the primary classroom
- Teach and reinforce concepts of print as well as text features and forms.
- Help students develop a variety of word work strategies and phonemic awareness
- Build comprehension strategies using fiction and nonfiction text
- Strengthen students’ reading, fluency, and phrasing

e-Literacy, LLC products are aligned with the No Child Left Behind/Reading First initiative.
